

1-1 PLANS, PRICING, & PROCESS

Bold Arrival LLC

Our work together is a partnership. I take you on a transformative path utilizing clearly defined steps to support your vision for yourself, your life, and your chosen career. I know that what we believe internally expresses itself externally. If we shift the internal landscape, we can often discover steps into a life and career that energizes us and enhances our true gifts. This will be a custom-designed experience to meet your needs and goals. We will discover and point out blind spots and support those areas that rise to the surface as unrealized potential. We will determine what is holding you back and what is necessary to move you forward.

*All packages include custom yoga, meditation, and alignment training for mindful leadership, resilience, integration of growth, and more internal balance emotionally and intellectually.
